

Servier Research Group announces the death of President-Founder Dr. Jacques Servier

Suresnes, 16th April 2014,

The Servier Research Group and all its collaborators have learnt with great sadness the death of their President-Founder, Dr. Jacques Servier, who died at home today in his ninety-third year.

The spirit, the motivation and the mission of this exceptional personality, whose whole life revolved around the research of innovative medicines, will continue to exist in the priorities given to scientific research and human values in the enterprise he created exactly 60 years ago.

Dr. Servier planned for the long term durability of his Research Group by organizing it in the form of a Foundation at the beginning of the nineteen-eighties. The dispositions concerning the structure, the Directors and the new President will be announced shortly according to his instructions.
